ARTGLO

ALCLAD

COMPOSITE CLADDING FOR EXTERIOR FACADE

10 YEARS WARRANTY

SATISFACTION GUARANTEED

ALCLAD

100% Reinforced core

ALCLAD is 100% reinforced this makes it significantly superior in strength & rigidity compared to other cladding materials such as WPC & PVC soffit which are hollow

Natural Wood Finish

ALCLAD is finished with a high durable exterior grade wooden coating on top. It makes it impervious to uv rays and harsh weather

A European Product

ALCLAD is made using very advanced european technology which makes it a premier product for exterior

Features

Ceiling - Facade - Interior - Exterior Doors

- insect proof
- non warping
- color stability
- water resistant
- fire resistant
- low maintenance
- eco friendly
- scratch resistant

@ARTGLO_AG

Artglo products are crafted to enhance the natural beauty of your spaces. Variations in weave, shade, and texture are inherent to the material and add to its authentic character, not flaws. Minor errors or omissions may occur. No guarantee applies after installation. Dimension tolerance: ±5%. For uniform color, we recommend using materials from the same batch.
